It is important to note that the results of this study are based on a cross-sectional design, which limits the ability to establish causality. Future research should employ longitudinal designs to investigate the temporal relationships between the variables studied.

Figure 1. Schematic diagram of the experimental setup. The subjects were seated in a dimly lit room and viewed the screen through a mirror. The screen displayed the target and the starting position of the hand. The hand was moved from the starting position to the target position. The distance between the starting position and the target position was 10 cm. The hand was moved from the starting position to the target position. The distance between the starting position and the target position was 10 cm.
