1000

Figure 1 is a 3D bar chart illustrating the distribution of the number of children per family. The x-axis represents the number of children (0 to 5), and the y-axis represents the number of families (0 to 10). The z-axis represents the probability of having a child (0.0 to 1.0). The bars show that the probability of having a child is highest for families with 0 children and decreases as the number of children increases.
