RESEARCH

21 September

A small bar chart with two bars. The first bar is short, and the second bar is significantly taller, indicating a sharp increase in the number of people with a job over the period shown.

WEST RICHMOND

Figure 1 consists of four histograms arranged in a 2x2 grid. The top row represents the 1970s, and the bottom row represents the 1980s. The left column shows the distribution for the 1970s, and the right column shows the distribution for the 1980s. The x-axis for all histograms is 'Number of children' ranging from 0 to 10. The y-axis is 'Percentage of women' ranging from 0 to 100. The distributions are unimodal and slightly right-skewed, with a peak around 2-3 children. The distributions for the 1980s appear slightly more concentrated than those for the 1970s.
