Figure 1 consists of two histograms side-by-side. The left histogram is labeled '1970s' and the right is labeled '1980s'. Both histograms show the frequency of children per woman. The x-axis represents the number of children (0 to 6), and the y-axis represents frequency. The 1970s distribution is centered around 2 children, while the 1980s distribution is slightly shifted towards 3 children.
